Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is the first Office action on the merits of Application No. 10/619,234 filed on July 14, 2003. Claims 1-14 are currently pending.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in the European Patent Office on July 16, 2002. It is noted, however, that applicant has not filed a certified copy of the European application as required by 35 U.S.C. 119(b).

Claim Objections

Claims 11 and 12 are objected to because of the following informalities: It appears that claims 11 and 12 directed to the tapered flanks should depend from claim 10 rather than claim 1. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 recites the limitation "the outer surface area" in line1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-6 and 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Gaggermeier '708 which discloses a driver unit for a multi-disk clutch including the disk 1 with external teeth 7 and the hub with casing 3 into which the disk is inserted. The casing has internal teeth defined between the recesses 8. Also note the tapered flanks 10 of the teeth 7.

Allowable Subject Matter

Claims 2, 7-9 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Prior Art Citation

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamamori et al. '026, Sugiyama '958 and Okada et al. '948 show spline connections for connecting a clutch plate to a drum. Gerathewohl et al. '740 does not qualify as prior art but is cited of interest.
